20TH CENTURY RESEARCH

Do you find it easier to find a person in 1880 than in 1980? If your answer is "yes," then this is the presentation for you. Learn the skills you need to find those missing people in the 20th century...how to reassemble their lives; figure out where they went and where their children are today. We'll touch on databases available on the internet, as well as other reference sources.
