Historic Columbian Cemetery Location Map

This map shows the sections, blocks, and lots in the Historic Columbian Cemetery. It is part of the GFO's project to organize and publish burial records to year 2005. This map is in progress as the project moves forward. The date below will indicate the version. A separate map shows the sections in more detail. In all sections, blocks and lots are approximately located; graves may be north or south of indicated position and some graves are placed between rows. Blocks in the Original Survey section are more irregularly shaped and sized than shown here.
