## Legacy Family Tree Software:

## Finding ancestors who were alive when the 1950 US census was taken

## Notes:

If you do not use Legacy, **you can download the free version and import a gedcom file** (from Ancestry, etc.) to do this search (https://legacyfamilytree.com/).

These screenshots are from version 9.

You can watch a video of this process for the 1940 Census at <u>https://www.youtube.com/watch?v=cHz-</u><u>TKjL-8</u>. It includes other information about the 1940 census, a "how-to" for using the Steve Morse enumeration district finder, and a Q&A. This video uses version 7.5 (it was created in 2012).

Legacy Family Tree software has a **search tool** to find who was living during any given census for a number of countries, including the United States.

Note: They will be adding the 1950 census, but for now, this example uses images for the 1940 US census. See below if you don't want to wait.

1. Click on Search>Census List

2. Choose United States>1940 Census and choose the Options you want.

You can print the list or save as a pdf. (This last option may not be available in the free version. If not, click on print and then choose the option Print to PDF – available on Windows).

This list includes:

individuals with or without birth or death dates

age at time of census

likely location in given census year

the event that location was based on (birth, marriage, etc.)

This list is only as good as the information you have entered into your tree.

4) Another option is to *Create a Search List*. To save or print that list, right click on options and choose the options you want. Then print, save, or create a .cvs (spreadsheet) file.

## Don't want to wait for the 1950 tool?

You can create a list based on parameters that you set.

1) Click on the *Search* tab, then *Find*.

2) Click on the *Detailed Search* tab, fill in the three conditions using *And*. (See below if Unites States is not included in your database entries).

Hints and Help

1) You didn't include the term "United States" in every entry? You can add it through the Master Location List (not sure if this works on the free version).

2) Getting help for Legacy is easy. Several ways to find what you need:

Click the *Help* tab and search the index, perhaps *Locations>Sort*. There are detailed instructions about how to do this.

Go to their website and click on the *Help Center* tab. Note that there is a wide range of subheadings under that tab.

Go to their website and click on *Training* – this goes to videos and webinars.

There is an active user group on Facebook - Legacy Family Tree - Home | Facebook .

Feel free to write if you have questions.
