Summary

Title: Corbitt Collection

Span Dates: 1236-1982

Accession Number: 2012-06

Creator: Willis Gregg Corbitt (1892-1982)

Extent: 9 boxes containing 465 files; additional folder of pedigree charts

Language: English

Repository: Digital Manuscripts Collection, Genealogical Forum of Oregon, Portland, Oregon

Abstract: This collection contains genealogical and family history research material focused on the Corbitt, Mitchell, Tool(e), Gregg and associated families who settled in Jefferson County, Iowa. This research consists of a wealth of correspondence, copies of records and research notes. There are also a variety of genealogy charts for many of the families. The research traces the migration of the families from their origins in England, Ireland, and Scotland. Some of the families settled in New England, later moving through Pennsylvania and Ohio before reaching Iowa. Other branches originated in Virginia and Kentucky. More recent generations settled in Washington, Oregon, and California.

The strength of this collection is in the correspondence dating from the 1930s. Mr. Corbitt kept copies of the letters he sent as well as the ones he received, giving the researcher a complete picture of the exchange. Some of the letters contain information that cannot be found in other sources, such as diary excerpts, cemetery locations and transcriptions that are no longer legible, obituaries, and personal accounts of family events.

In addition to his own research, Mr. Corbitt did research for the Genealogical Forum of Oregon and the Oregon Historical Society, including work on the Oregon Pioneer project. He exchanged information with societies from across the country. These files are interspersed with his personal research.

Administrative Information

Provenance: The manuscript collection of Willis Gregg Corbitt was acquired by the Genealogical Forum of Oregon before 2012.

Retention and Access: Scanned images of the collection are currently retained by the GFO Manuscript Committee in three separate digital storage locations and can be accessed at the GFO library or by contacting manuscripts@gfo.org.

Processing History: Processing and description of the Corbitt Collection began in the fall of 2014 and scanning was completed in the fall of 2015. Retention of materials was in accordance with the GFO Manuscript Committee guidelines.

Copyright Status: The status of copyright in the unpublished writings and genealogical research papers of Willis Gregg Corbitt is governed by the Copyright Law of the United States {Title 17, U.S.C.}.

Preferred Citation: Corbitt Collection. Acc. 2012-06. Digital Manuscripts Collection, Genealogical Forum of Oregon (Portland, OR). Box number, File number, Page number.

Biographical Note

Willis Gregg Corbitt, the third son of Charles Hickling Corbitt and Cora Adaline Mitchell, was born April 29, 1892 on a farm a mile west of Fairfield, Jefferson County, Iowa. In the spring of 1905, the family moved to a wheat ranch on the Rattlesnake Hills nine miles north of Kiona, Benton County, Washington. In 1909 the family moved again, this time to Seattle where Willis graduated from high school in 1912. In 1914 he entered the College of Forestry at the University of Washington and studied forestry and logging engineering. In 1917 he joined the U.S. Army and served for two years, primarily working in the forests of France.

Upon his return he completed his degree and began a long career in the forestry industry. He worked in both the private and public sectors until his retirement in 1957 at the age of 65. For the next 25 years he travelled, pursued his many hobbies, and volunteered at the GFO, the Oregon Historical Society and other organizations. In 1980 he was honored by the Western (now World) Forestry for his volunteer work there.

Mr. Corbitt began his genealogical research to help his mother document her family's history so that she could join the Daughters of the American Revolution. His work in this field spans over fifty years of research. He travelled across the country to search for records and maintained steady correspondence with extended family and fellow researchers. This collection is a tribute to the diligence and patience required to be a successful genealogist in the decades before the Internet.
